With any needed nitrogen

Foliar application / acre

Apply at 12" to V4

16oz C4

Apply at Silk

16-24oz C4
32oz PGS

SOYBEANS

Starter in row / on seed

64 oz PGS
Plus any needed NPK.

Foliar with herbicide application/acre

First Application: *Apply 30 days after planting
or right before flowering*

16 oz C4

Apply at pod fill

16 oz C4
32oz FoliarCal

Apply half rate C4 with every chemical
application.

WHEAT

Drill Setup for Liquid Starter:

16oz C4
32oz PGS
Plus any needed NPK

Broadcast Apply/acre

28% N
3 gal Liquid Calcium

1st Top Dress/Before Joint

16 oz C4 & 32oz PGS or 64oz GRO
Any needed herbicide/nitrogen

2nd Foliar Application Flagleaf

16oz C4
32oz PGS

Apply half rate C4 with every chemical
application.

Should help control fungus and bugs

ALFALFA

Fall Apply

1-2 gal HA12
1 gal Min-Tec

Broadcast first green up

5 gal Fish Fertilizer
3 gal Liquid Calcium
16 oz C4
32oz PGS

Apply after each cutting

16 oz C4
32 oz PGS

Should help to control fungus and
bugs/improve brix and RFV

GRASSFor New Seeding

2-3 gallons HA-12

For Baling**First Application**

32oz PGS

1/2 gal Min-Tec + 3 gal Calcium and
any needed Nitrogen

Foliar Feed after cuttings

16oz C4

32oz PGS

For Grazing

32oz PGS

1 gal MinTec +16 oz C4

3 gal Calcium/any needed Nitrogen

COTTONApply in row on seed

1 gal HA-12 plus needed NPK (for hardpan)

16oz C4

32oz PGS

Broadcast pre emergence with any needed N

3 gal Liquid Calcium

Foliar apply before boll set:

16 oz C4

32 oz PGS

Apply half rate C4 with every chemical application.

RICEBroadcast/acre

3 gal Liquid Calcium

Needed Nitrogen

Foliar Apply before joint /acre

16 oz C4 & 32oz PGS

2nd Foliar Application Flagleaf

16-24 oz C4

32oz PGS

Apply half rate C4 with every chemical application.

SUNFLOWERSBroadcast Pre-Emergence

28% Nitrogen

3 gal Liquid Calcium

Apply in row on the seed

1 gal HA-12 (for hardpan)

16oz C4

32 oz PGS

Plus any needed NPK

Foliar Feed Before flowering

16oz C4

32oz PGS

Foliar Feed During Flower Fill

16oz C4

32oz PGS

Apply half rate C4 with every chemical application.

Peanuts/Dry Edible BeansApply in row on seed

1 gal HA-12 (for hardpan)

16oz C4

32oz PGS

Plus any needed NPK starter

Broadcast pre emergence

3-4 gal Liquid Calcium

Plus any needed Nitrogen

Foliar Apply before flowering

16 oz C4

32oz PGS

Foliar apply during pegging

32oz Foliar Calcium

Apply half rate C4 with every chemical
application.

Should help control fungus and bugs
