

CleanGreen®
AG-Tec
**Complete Ag
Enhancer**

Principal Functioning Agent:

Soap (The water soluble sodium or potassium salts of fatty acids produced by either the saponification of fats and oils, or the neutralization of fatty acid)

**One 2.5 gallon jug treats
1,000 gallons of tank mix!**

Gallons: 2.5 Net Weight: 8.75lb per gallon

General Information

For the enhancement of Ag chemicals and fertilizers through increased availability. Ag-Tec makes most foliar products more permeable allowing faster plant uptake. Through the use of micelle technology, Ag-Tec pulls itself and foliar mix into the wax of the plant, embedding mix into inner cell structure within seconds greatly increasing foliar mix availability and efficiency.

Recommended Application

2.5 gallons of Ag-Tec treats 1,000 gallons of tank mix. Treat tank water with Ag-Tec then mix in chemical and/or fertilizer. Compatible with most foliar fed fertilizers other spray materials. For extremely hard water use 5 gallons of Ag-Tec per 1,000 gallons.

Always jar test before using.

As with all surfactants, foaming can occur. Ag-Tec contains no pH buffering agents. Can be used effectively with chemicals requiring no AMS.

Caution: Keep out of reach of children. Harmful if swallowed. If ingested consult a physician. Avoid prolonged contact with skin. In case of eye contact flush with plenty of water for at least 15 minutes.

U.S. Ag, LLC makes no warranties of any kind, express or implied with respect to CleanGreen Ag-Tec. Manufacturer's and seller's obligation limited to replacement of product for defective material only.
