Soluble Potash (K₂O).....1.00%
Derived From: kelp extract

General Use Directions

Fertility product for use as a starter, seed treatment and foliar application for growing crops.

Starter: Apply 32-64oz in the row on the seed.

Seed Treatment: Apply to seed at approximately 8oz per bushel of seed.

Foliar Apply: 32oz per acre per application. Can be applied with other chemical and fertilizer application.

Compatible with most fertilizers and spray materials. Shake or agitate before use. Always jar test before using.

Organic Kelp is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other plants during the course of the year.

Caution: Keep out of reach of children. Harmful if swallowed. If ingested consult a physician. Avoid prolonged contact with skin. In case of eye contact flush with plenty of water for at least 15 minutes.
