1GAI/3.79L (percentage by weight)

All ingredients are exempt from the requirements of a tolerance as specified in 40 CFR 180

General Use Directions

Pro-Tec is an all natural surfactant designed to improve the performance of fertilizers, pesticides and other agricultural products by increasing their ability to be carried into plant tissue effectively.

Recommended Application Rates

1st Application: Apply Pro-Tec at a rate of 12.8oz per acre in the row on the seed. Over the row or broadcast at planting use 16oz per acre.

2nd Application: Apply Pro-Tec at 12.8oz per acre early in plant growth stage.

For trees and heavy infestations apply at 16oz per acre as needed.

Compatible with most fertilizers, pesticides, and other spray materials. Shake or agitate before use.

CAUTION: Must Buffer Tank Mix Water pH down to at least 5 before mixing in Pro-Tec.

Always jar test before using.

Caution: Keep out of reach of children. Harmful if swallowed. If ingested consult a physician. Avoid prolonged contact with skin. In case of eye contact flush with plenty of water for at least 15 minutes.

Gallons: _____ Net Weight: 8.75lb per gallon
