

CleanGreen®

I.F.C.

Adjuvant

**Principal Functioning Agent:**

Soap (The water soluble sodium or potassium salts of fatty acids produced by either the saponification of fats and oils, or the neutralization of fatty acid)

**General Use Directions**

I.F.C. is a natural non-ionic adjuvant designed to improve the performance of fertilizers, pesticides and other agricultural products by increasing their ability to be carried into plant tissue effectively.

**Recommended Application Rates**

Mix I.F.C. at a rate of 1oz per gallon of solution. A rate of up to 2oz per gallon may be used to maximize effectiveness.

Compatible with most fertilizers, pesticides, and other spray materials. Shake or agitate before use.

Do not mix solution at a ratio stronger than 20:1 as it may be harmful to the growing crop.

Always jar test before using.

**Caution: Keep out of reach of children.** Harmful if swallowed. If ingested consult a physician. Avoid prolonged contact with skin. In case of eye contact flush with plenty of water for at least 15 minutes.

Gallons: \_\_\_\_\_ Net Weight: 8.75lb per gallon
