Guaranteed Analysis

Soluble Potash (K₂O).....1.00%

Derived From: Cane Molasses

General Use Directions

Product is designed for increased energy boost in times of rapid growth, crop development or times of stress. Fertility product for use as a starter and foliar application for growing crops.

Starter: Apply 32-64oz in the row on the seed.

Foliar Apply: 32oz per acre per application. Can be applied with other fertilizer applications. Can also be aerial applied at same rate.

Soil Apply: 64oz per acre.

Compatible with most fertilizers and spray materials. Shake or agitate before use. Always jar test before using.

Organic Carbon is intended as a supplement to a regular fertilization program and may not, by itself, provide all the nutrients normally required by crops or other plants during the course of the year.

Caution: Keep out of reach of children. Harmful if swallowed. If ingested consult a physician. Avoid prolonged contact with skin. In case of eye contact flush with plenty of water for at least 15 minutes.
