

Liquid Calcium the King of High Yield Peanuts

Higher Grade Yields

Our 100% available liquid calcium products are a complete solution & superior alternative to lime/gypsum applications. Our formulation provides the means to maximize crop potential!

- Effectively Supplies Calcium to Pegging Zone
- Better Stronger Pods
- Better Germination
- Neutral pH
- Immediately Available
- Promotes Proper Seed Development
- Reduces Pops, Pod Rot, Black Heart and Germination Issues
- Easier and Faster to Apply than dry lime/gypsum products
- More Affordable than Lime/Gypsum!

Unlike Any Other Calcium on the Market!
